

CHAPTER 14

RESETTLEMENT AND REHABILITATION PLAN

14.1 AFFECTED FAMILIES

The total affected family may be categorized as fully affected and partially affected. Fully affected families are those who will be losing their houses and entire land. The families who are losing their homestead will be required resettlement. The partially affected families are those who will lose their part of land, required for the construction of the project.

14.1.1 Fully Affected Families

As presented in the EIA report five villages falling in the submergence areas of Dibang Multipurpose Project will be fully affected. The number of the families inhabiting in these villages are 72. The total population of these households is 243. The total land of these families are 938.8 ha (868 ha village land + 70.8 ha agricultural land). The village wise details are given in the Table14.1. Seventy two families staying in five villages are to be relocated.

Table 14.1: Number of Families and Composition of Affected Villages

Villages	Total Families	Male	Female	Ratio (Per Thousand Males)	Total
New Anaya	36	64	59	922	123
Sukla Nagar	19	33	37	1121	70
Eprali	3	6	4	667	10
Kano	7	13	12	923	25
Peely	7	7	8	1143	15
Total	72	123	120	976	243

According to the table 14.1 it was seen that among all the five villages the highest population was in New Anaya village followed by Sukla Nagar, Kano, Peely and Eprali respectively.

14.1.2 Partially Affected Families

Due to project activities some 14 families will be partially affected having a

population of 58. The total lands of these families are estimated as 557 ha and also an additional land area of 1108.9 ha of community land will be affected.

14.2 RESETTLEMENT AND REHABILITATION MEASURES

The process of Resettlement and Rehabilitation (R &R) has two distinct components, viz. resettlement and rehabilitation. The resettlement package broadly includes assistance to PAFs for shifting to new sites and providing essential civic amenities and services. On the other hand, rehabilitation package is conceptualized around a development strategy with long-term perspective. The basic thrust of this strategy is to bring about a socio – economic transformation of the PAFs so as to improve the quality of their life. As a part of the field studies, the information on awareness about the project amongst the PAFs and their impending displacement was also collected. As a part of the survey in the submergence area, the PAFs opinions were taken regarding R & R. This was done to primarily understand what the PAFs looked forward to as compensation for the loss they are likely to bear.

As mention earlier, about 72 families will be losing their homestead and their entire land in five villages. Majority of them are involved in wet rice cultivation and jhum cultivation. So they would have to be compensated for their cultivable land as well as homestead. Following R & R measures are proposed:

1. Project Affected Families will be resettled to a new location of their choice. The resettlement colony shall be selected in consultation with the District / State Administration.
2. **Cultivable land:** One hectare land to be provided to each fully affected family. The PAF will be compensated for remaining cultivable land coming under submergence. If the land is not available the cost @ Rs. 1.75 lakh/ha shall be provided.
3. **Homestead land:** Each fully affected family will be provided homestead land of 200 sq m (0.02 ha) in resettlement site.
4. **House construction grant:** A sum of Rs. 1.5 lakh (Rupees One lakh fifty thousand only) will be paid to each displaced fully affected family

for the construction of houses in the resettlement colony.

5. Landless grant @ Rs. 50,000 per PAF will be given to PAFs rendered landless after acquisition.
6. Eligible person grant to @ Rs. 40,000 per PAF will be given to PAFs left with less than 1 ha land after land acquisition.
7. **House shifting grant:** The PAFs will be allowed to retrieve materials from their original house. In addition an amount of Rs. 20,000 per PAF will be given to each fully affected family as house shifting grant (transportation grant).
8. Financial assistance @ Rs. 15,000 per PAF will be given for construction of cattle shed.
9. Land development charges @ Rs. 20,000 per PAF will be given.
10. Livelihood grant of 1000 days minimum agricultural wages (MAW) @ Rs. 100/day (tentative) to PAFs rendered landless after land acquisition.
11. Livelihood grant of 750 days minimum agricultural wages (MAW) @ Rs. 100/day (tentative) to PAFs left with less than 1 ha of land after acquisition.
12. Monthly subsistence allowance @ Rs. 2,000 per month for one year will be given to fully affected families.
13. **Infrastructure facilities:** In addition to above, the following infrastructure is proposed to be developed in the resettlement colony:
 - Piped water supply
 - Community toilets
 - Sewage treatment facilities & sewerage system
 - Electrification
 - Shopping complex
 - Primary health centre (PHC) / Hospital
 - Community centre
 - Vocational activity centre
 - School complex including playground
 - Children park
 - Avenue plantation & block plantation
 - Approach road up to resettlement colony

- Internal roads in resettlement colony
- Irrigation facilities

14. Vocational training and scholarship shall be provided for PAFs.

15. For land of partially affected families and for community land compensation will be given @ Rs. 1.75 lakh/ha. (Budget for this has already been kept in DPR under B-land).

14.3 BUDGET ESTIMATE FOR RESETTLEMENT & REHABILITATION

The budget estimate for implementing the R & R plan is given below in Table 14.2.

Table 14.2: Budget for Resettlement & Rehabilitation Plan

Budget for Resettlement & Rehabilitation Plan					
S. No.	Parameter	Criteria	No.	Unit Cost Rs. lakhs)	Total Cost (Rs. lakhs.)
1	Land for Agriculture	1 ha/PAF	72	1.75/ ha	126.00
2	Homestead land	0.02 ha/PAF	72	1.75/ha	2.52
3	House construction grant	Rs. 1.5 lakh/PAF	72		108.00
4	Landless grant to PAFs rendered landless after acquisition	Rs. 50,000/PAF	72		36.00
5	Eligible person grant to PAFs left with less than 1 ha land after land acquisition	Rs. 40,000/PAF	14		5.60
6	House shifting grant (Transportation grant)	Rs. 20,000/PAF	72		14.40
7	Financial assistance for construction of cattle shed	Rs. 15,000/PAF	87		13.05
8	Land development charges (land development, seeds, fertilizers)	Rs. 20,000/PAF	87		17.40
9	Livelihood grant to PAFs	1000 days MAW	72		72.00

EMP Report of Dibang Multipurpose Project

	rendered landless after land acquisition	@ Rs. 100/day			
10	Livelihood grant to PAFs left with less than 1 ha of land after acquisition	750 days MAW @ Rs. 100/day	14		10.50
11	Monthly subsistence allowance to PAFs	Rs. 2,000/month for 1 year	72		17.28
12	Water supply	For resettlement colony/sites			10.00
13	Community toilets	1 per 5 PAFs	15	0.50	7.50
14	Development of sewage treatment system including drainage system	For resettlement colony/sites			8.00
15	Electrification	For resettlement colony/sites			20.00
16	Construction of shopping complex	For resettlement colony/sites	1		5.00
17	Construction of PHC/ Hospitals	For resettlement colony/sites	2	20.00	40.00
18	Construction of community centre	For resettlement colony/sites	1	10.00	10.00
19	Construction of vocational activity centre	For resettlement colony/sites	1	5.00	5.00
20	School Complex including play ground	For resettlement colony/sites	2	20.00	40.00
21	Children's park	For resettlement colony/sites	2	2.00	4.00
22	Avenue plantation & block plantation	For resettlement colony/sites	1	1.00	1.00
23	Approach road up to resettlement site	For resettlement colony/sites	1	20.00	20.00
24	Internal roads in the resettlement colony	For resettlement colony/sites	1	2.50	2.50

EMP Report of Dibang Multipurpose Project

25	Irrigation facilities to PAFs				20.00
26	Scholarship/vocational training to PAFs				50.00
27	Monitoring & Evaluation				5.00
Total					670.75
					Say, 671.00
